**From The Desk Of:**

Chris Anderson, Founder & Head Article Quality Inspector  
*Custom High Quality Article Writing Services*

**Dear Online Business Owner,**

If you’re in the market for high-quality, low-priced articles written specifically for your niche... and... if you’re tired of being jerked around by article writers that cost too much and almost never deliver on time, then *this will be the most important letter you will ever read.*

Here’s why: I’m about to share with you the secret of a *little-known* article writing company south of Mumbai that has taken advantage of current economic conditions in order to offer you custom articles at a price so cheap, and at a quality so high, you won’t believe your eyes!

Listen, if you've ever bought articles online in the past, you know that the web's flooded with writers that *promise one thing, and deliver quite another...* You'll find complaints on online forums about low-quality articles... incoherent articles... articles delivered late or never at all... and... about just how hard it is to get your money back. *It's just not right.*

When I first got into online marketing 2 years ago and saw all of this happening, **I vowed to make a change...**

## **“A New Breed Of Article Service Is Born...”**

That's when I decided there was a real need for quality article writers and I formed my company, “Custom High Quality Article Writing Services” to fill this demand. I based my company on the following *3 Golden Principles*:

1. To offer only articles with **the highest standards of quality**
2. To provide the **lowest-cost articles found anywhere online**
3. To **deliver articles fast & on time**

Since starting my company, I'm happy to report that we've provided custom articles to over 800 satisfied clients worldwide. And, what's more, we **haven't had a single refund request in these 2 years of service.**

Now you might be thinking “sure, I've heard these “high-quality” claims before, but I've just been disappointed time and time again...” Well, let me show you some proof.

Here's the text from a typical article that one of our staff members has recently written. Please judge the quality for yourself:

### **Winning The Weight Loss Game**

#### **4 Quick Tips For Weight Loss – Though It Is Simple, It Works!**

It always feels good to have a slim physique. In this modern trend there are many diet planning advice and equipments available for weight loss. In this article let's talk about four quick useful tips which will assist in weight loss.

#### **# 1 Manage Your Diet**

Human body system directly reacts upon what you eat. Junk or preserved food contains saturated fat in it and leads to obese. Have 3 meals a day at regular

intervals and avoid consumption of fast foods, which are often high in fats and calories. Keep a watch on intake of food items with high sugar content as it may lead to weight gain.

## **# 2 Exercise Regularly**

Regular exercising helps to increase your metabolism, which will increase use of energy and consequent shrinking of fat cells which leads to weight loss. Walking is suggested to be the best tip for weight loss. Regular walking will show a considerable improvement in general health as well as better oxygenation of the blood, which will firm and tone the muscles.

## **# 3 Seek for Professional Guidance**

Sudden crash dieting and rigorous workout will provide immediate weight loss, however the concern is about healthiness. Gradual weight loss is the permanent and suggested one. It is best advised that you contact a dietician to get your diet plan. Play it safe, get professional advice on weight loss tips based on your body's nature.

## **# 4 Motivate Yourself**

Many people will rigorously work towards reducing weight in the beginning. However as time goes by they get carried away in the process, consistency lacks here. When it comes to weight loss, you are your own boss, so explore different ways that will keep you on track. Take photographs to keep a track on your improvement stage by stage. You may also share it with someone, whose positive comment might serve as a booster for your future work out.

It's a guarantee that if you stick on to the above said tips it will help you to reduce weight. Thus I believe that these weight loss tips will be useful to lead a healthy life.

**\*\*\*WARNING\*\*\***

**Do NOT Purchase ANY Article From ANY Writer  
Until You...**

**FOLLOW THESE 6 CRITERIA:**

1. **ONLY** order articles from a writer AFTER you have seen multiple high-quality article samples.
2. **WHEN** you order keyword-optimized articles, make sure that the *keywords occur naturally* in the article with a keyword density of 1% (otherwise you'll be penalized by search engines.)
3. **MAKE** sure your article contains only *high-quality content* that's easy to read and that guides your reader until the every last word.
4. **CHECK** to make sure your articles will be *100% unique and Copyscape-approved* (to prevent plagiarism)
5. **MAKE** sure you *don't get ripped off!* Some writers will try to sell you incoherent junk articles for as much as \$10 to \$15 just because they can get away with it...
6. **CHECK** to make sure the article will be *100% handwritten* by your writer.

**Every One Of Our Articles Subject To Strict "23-Point Inspection"**

To make sure you only get the best quality content that's guaranteed to appeal to your target audience, each of our articles is put through our rigorous "23-Point Inspection" checklist:

1. **100% Unique** – I guarantee that your articles will be 100% original.

2. **High Quality** – Our staff includes former newspaper and magazine writers (*Woman's Era*) and *every one of our writers has at least a college degree and 2 years of article writing experience*, which means that you'll get a high-quality article written every time.
3. **Well Researched** – Each article will be fully researched using different reliable sources to make sure your article is complete.
4. **Well Written** – Your article(s) will be written in an easy-to-follow, easy-to-read style.
5. **Right Keyword Density** – SEO experts recommend that keywords be used ~ 1% of the time. For SEO-written articles, we'll automatically write your article so that it's keyword-optimized (otherwise we'll just write for your topic without optimizing specific words).
6. **Proper Keyword Placement** – *Where* you place your keywords is equally important. Our writers have been trained to naturally place keywords in optimal locations.
7. **Very Informative** – Your readers will thank you after reading your valuable information-rich articles.
8. **Exclusive to You** – I guarantee that each of your articles will only be delivered to you and nobody else.
9. **Plagiarism-Free** – Absolutely NO article will be copied from existing content.
10. **You Own The Full Copyrights** – Once we deliver the articles to you, you will own the full copyrights and can use the content in any manner as you wish.
11. **Articles are Not Resold** – We will NEVER sell any article that we write for you to anybody else, EVER.
12. **Good Grammar** – We guarantee that only correct grammar will be used in your articles.
13. **No Spelling Errors** – Your articles will be free from spelling errors.
14. **Perfect Punctuation** – Every article will feature excellent punctuation.
15. **100% Hand Written** – Absolutely no software will be used to generate your content.
16. **Good Vocabulary** – Only good, easy to understand vocabulary will be used.
17. **Reader-Friendly Format** – We will properly format your articles so that they're easy to read, with nice clean-looking paragraphs.
18. **Engaging Writing Tone** – Each article will be written in a matter that engages your readers and guides them to the very last word.
19. **Flows Well** – Each sentence of the article will flow naturally into the next.

20. **Only Factual Information** – Your article will only be filled with researched, well-documented facts. We will never fill up space in your article with non-verified information.
21. **Customized Articles to Exactly Meet Your Needs** – Your articles will be tailored to meet your specific needs and instructions.

[www.AtlanticAnime.com](http://www.AtlanticAnime.com)

Up until now, our relatively “small” operation could only accept a limited number of clients due to our small team of quality writers.

However, due to recent economic changes around the World...

**“I’ve Come Up With An “Irresistible Offer” So Good You’ll Barely Believe Your Eyes...”**

You see, two things have happened recently that have forced me to re-evaluate and actually *transform* my article-writing business:

1. The market for quality high-quality articles has kept on growing lately, in part due to the abundance of low-quality content providers, and in part due to growing need for more and more articles (website content, blogs and articles to submit to article directories.)
2. The recent economic downturn has left many highly qualified people in my country jobless... including many extremely skilled writers who were actively looking for solid, legitimate ways to earn income from their homes.

So that's when it hit me.

I put two and two together and ***decided to go on a hiring frenzy and snatch up as many talented writers as I could before someone else did!*** When all was said and done, I ended up with over 100 hand-picked, highly-skilled writers!

I figured that with more writers I could easily handle more business and meet the growing online article demands... but also... **I could now lower my prices since these people would be working from home and I now had no overhead!** All I needed then was to figure out a way to keep all these writers busy, so that's when I came up with...

## **“My Amazing New High-Quality, Rock-Bottom Low Price Articles Offer!”**

Listen, if you've had a good look at the samples I showed you earlier in this letter, you know I could *easily* charge upwards of \$10 to \$15 for these articles. However, I'm not going to. **In fact, I'm not even going to charge remotely close to what I *should* be charging.**

You see, because of the recent “luck” I've had in hiring my new team of writing wizards...

**I'm going to offer you high-quality 500-word articles for only ~~\$9.97~~ \$3.97 each! Plus... I'll even deliver them to you in less than 48 hours! (For orders of 30 articles or less.)**

This is a truly UNBEATABLE price and UNBEATEABLE turnaround time in the article-writing industry.

### **Each Article Will Be:**

- Written for any given topic or keyword phrase you like
- 500 words per article (the optimal size)
- Delivered super fast! (See later for exact times)
- Written to appeal specifically to your target audience

So now, for a limited time you'll be able buy as many articles as you want, 1 up to 500, all for the same unbeatable low price of \$3.97 per article!

Plus, you'll also be helping out skilled writers that the economy simply left for dead. Each one of my *writing angels* is eager and willing to write a high-quality, well-researched article just for you.

Click below and *your own custom articles will be* in your hands in less than 48 hours from now...

All of our articles come with our **3 Full, Rock-Solid, Iron-Clad Guarantees:**

### **Iron-Clad Guarantee #1 – Our “Best In The Biz, Ultra-Fast Turnaround Times” Guarantee**

Here are the different turn-around times we guarantee when you order your articles from us. Nobody else in the business comes close to guaranteeing such fast turnaround times for orders as large as these.

1- 30 Custom Articles :	48 Hrs or less
31-50 Custom Articles :	72 Hrs or less
51-100 Custom Articles :	4 Days or less
100-300 Custom Articles :	7 Days or less
301-500 Custom Articles :	9 Days or less

### **Iron-Clad Guarantee #2 – The “Automatic Article Directory Acceptance” Guarantee**

Most article directories use an editorial review process to determine which articles get accepted and which get rejected. When you purchase your articles from us, you won't need to worry since we'll guarantee that your articles get accepted right off the bat.

### **Iron-Clad Guarantee #3 – The “100% Money Back Total Satisfaction” Guarantee**

Now you may be wondering, “okay, that’s all fine and dandy, but what if I’m not completely satisfied with your articles? What then?”

Well, glad you asked.

While close to 99% of our articles are written perfectly the first time around, we occasionally miss the mark. That’s why we offer all of our clients unlimited free revisions. And if this doesn’t cut it, just say the word and I’ll send you back all of your money right away, no fuss.

**Note:** We will retain ownership of the full copyrights for any article you return. That means that you will **not be** allowed to use them anywhere on the Internet after a refund (detecting the illegal usage of articles online is very easy and can may lead to legal copyright infringement prosecution.)

**“Like All Good Things... These “Rock-Bottom” Prices  
Won’t Last Long... So Grab Your Custom Articles Here  
Before It’s Too Late!”**

Look, the truth is, I could easily charge between \$10 and \$15 for the 500-word article I’m basically “giving” away for peanuts today. If you’ve been around content marketing for any extended period of time, I’m sure you’ll have realized that this is a ***Golden Opportunity of a Lifetime***.

And in case you’re saying “yeah, but you get what you pay for... and \$3.97 per article likely isn’t going to be worth much...”

Well, think of it this way. It’s actually like you’re getting a \$10 article, but instead of paying 10 bucks, you’ll get it for a real bargain price of just \$3.97! The fact is, my writers (each of whom has at least a college degree and 2+ years writing experience) would much rather keep busy working at home than being unemployed. And because the “cost of living” south of Mumbai is so much lower than in the rest of the World, I’m able to offer you these high-quality unique articles at *amazingly low prices!*

HOWEVER, \$3.97 is pretty much at the limit of what is reasonable, and borders on insanity...

At these prices I wouldn’t be able to stay in business for much longer without going broke. So that’s why **I’m only offering these “unheard of” rates for a limited time to build up my client base and get more business since I know people order more articles when the price is low.** So we both win. I also know that once you experience our high-quality, low-price articles, you’ll want to keep doing business with us again and again... even if we raise our prices to \$4.97, \$6.97 or higher (since we’ll still be cheaper than anybody else!)

**Don't pass up this opportunity.** It only takes 2 minutes for you to place your order and I'll send you back your articles in at little as 2 days. Click the button below to order now.
